CM-GM2

Professional Gooseneck Condenser Microphone

Catalogue

CM-GM2 Professional Gooseneck Condenser Microphone

Category: Talkback & Commentary.

Product Function: Gooseneck mic for use with commentary and talkback systems.

Typical Applications: Use with the CM-TB8, CM-CU21, CM-CU1 or any system which supports an XLR mic input. Large

scale conferences, public addresses and outdoor speeches.

Features:

- High performance, extremely clear sound.
- High sensitivity, low self noise.
- Exceptional frequency response.
- Durable flexible gooseneck.
- XLR male base connection.
- Red LED around collar illuminates when phantom power is on.
- 310mm flexible neck.

This is a professional gooseneck condenser microphone which has a back electret condenser element with an ultra-cardioid polar pattern.

A red LED circling the head of the microphone illuminates when phantom power is applied to the mic. At the base of the mic is a male XLR plug connector to plug into intercoms and talkback systems.

It is 31cm long and has two flexible sections near the head and the base of the mic so that it can be moved into different orientations.
