Sonifex DMC Software Versions			
Version	Date	Changes	Description
1.6↓	29/09/2026	New	Added support for RM-X Talk and Help functionality, including microphone mute status and controls.
		New	Added monitored device offline alerts, with visual indicators and desktop/browser notifications when a monitored device changes from online to offline.
		New	Added browser title alerting for Help and Offline events when DMC is running in a background browser tab.
		Changed	Device features and controls are now determined by device capabilities, improving support for different device models and future device types.
		Changed	Improved restoration of saved devices and Device Tile Settings.
		Changed	Improved Monitoring UI, alert handling, and control visibility for different device models.
		Note	Monitored Device Offline Alerts are transition-based. An alert is generated when a monitored device changes from online to offline. Devices that are already offline when DMC starts, or when Offline Alerts are enabled, do not generate an alert.
